

Deactivate „Find my“

„Find my“ can help you recover a lost or stolen device. If you want to return your Apple device for repair, make sure you have „Find my“ disabled.

1. Go to www.icloud.com and sign in with your Apple ID.
2. Click on „Find iPhone“.
3. Select the appropriate device under "All Devices".
4. Click "Remove from account" at the bottom.

3. **Alle Geräte**

When you get your Apple device back after repair, you can activate "Find My Mac" on your Mac again under: System Settings->Apple ID -> iCloud
